

```
std::iterator< std  
::forward_iterator_tag,  
Node >
```

A diagram illustrating the relationship between a custom iterator and the standard library's iterator traits. A light gray box at the top contains the text `std::iterator< std::forward_iterator_tag, Node >`. A dark gray box at the bottom contains the text `Node::NodeIterator`. A blue arrow points vertically from the top of the bottom box to the bottom of the top box, indicating that `Node::NodeIterator` inherits from or is a specialization of the standard iterator.

```
Node::NodeIterator
```
