

```
std::iterator< std  
::forward_iterator_tag,  
Rule >
```

A diagram showing a relationship between two C++ types. A light gray box at the top contains the code for `std::iterator`. A dark gray box at the bottom contains the code for `Grammar::RuleIterator`. A blue arrow points from the bottom box to the top box, indicating that `RuleIterator` inherits from `std::iterator`.

```
Grammar< _input_t,  
_output_t, GRAMMAR  
_TYPES >::RuleIterator
```
